INDEPENDENT AUDITOR'S REPORT

Members of the Township Board Charter Township of Portage Houghton, Michigan

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Charter Township of Portage as of and for the year then ended December 31, 2019, and the related notes to the financial statements, which collectively comprise the Township's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the government activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Charter Township of Portage as of December 31, 2019, and the respective changes in financial position and where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As described in Note L to the financial statements, in 2019, the Township adopted the new accounting guidance of GASB Statement No. 84, *Fiduciary Activities*. As a result of implementing this pronouncement, the Statement of Changes in Fiduciary Net Position is a required statement which reports the increases and decreases of fiduciary funds and has been added to the financial statements. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, and budgetary comparison information on pages 6 through 10 and 42 through 43 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Township's basic financial statements. The additional information on pages 45 to 52 are presented for purposes of additional analysis and is not a required part of the basic financial statements.

The additional information on pages 45 to 52 are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the basic financial statements as a whole.

CHARTER TOWNSHIP OF PORTAGE MANAGEMENT'S DISCUSSION AND ANALYSIS December 31, 2019

This section of the Charter Township of Portage's annual financial report presents management's discussion and analysis of the Township's financial activities during the fiscal year ended December 31, 2019. The analysis focuses on the Township's financial performance as a whole. It is intended to be read as part of the Township's financial statements, which immediately follow this section.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the Township's basic financial statements. The Township's basic financial statements comprise three components: 1) Government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-Wide Financial Statements: The government-wide financial statements are designed to provide readers with a broad overview of the Township's finances, in a manner similar to a private-sector business.

The statement of net position presents information on all of the Township's assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Township is improving or deteriorating.

The statement of activities presents information showing how the Township's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., earned but unused compensated absences).

Both of the government-wide financial statements distinguish functions of the Township that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the Township include general government, public safety, public works, and recreation. The business-type activities of the Township include water and sewer operations.

Fund Financial Statements: A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Township, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the Township can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental funds: Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a Township's near-term financing requirements.

CHARTER TOWNSHIP OF PORTAGE MANAGEMENT'S DISCUSSION AND ANALYSIS December 31, 2019

Overview of the Financial Statements (Continued)

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the Township's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the general fund which is considered a major fund. Data is combined into a single aggregated presentation for the other governmental funds(non-major governmental funds). Individual fund data for each of the non-major governmental funds is provided in the form of combining statements and schedules.

The Township adopts an annual appropriated budget for its general fund and special revenue funds. Budgetary comparison schedules have been provided for the general and special revenue funds to demonstrate legal compliance.

Proprietary Funds: The Township maintains one type of proprietary fund. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The Township uses enterprise funds to account for its water and sewer operations. Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the sewer and water funds, both of which are considered to be major funds of the Township.

Fiduciary funds: Fiduciary funds are used to account for resources held for the benefit of parties outside the government. The Township is the trustee, or fiduciary, for assets that belong to others for the benefit of individuals and other agencies outside the government such as members of the public, and other governments. Fiduciary funds are not reflected in the government-wide financial statement because the resources of those funds are not available to support the Township's own programs. The Township maintains one type of fiduciary fund. Custodial funds are used to account for and report fiduciary activities that are not required to be reported as another fiduciary fund type.

Notes to the Financial Statements: The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other Information: In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information. This is limited to this discussion and analysis, required pension schedules and the general fund budget and actual presentation. Supplemental information follows the required pension schedules and includes combining and individual fund statements and schedules.

CHARTER TOWNSHIP OF PORTAGE MANAGEMENT'S DISCUSSION AND ANALYSIS December 31, 2019

Financial Analysis

<u>Governmental Funds</u> - The focus of the Township's governmental funds is to provide information on near-term inflows, outflows and balances of spendable resources. Such information is useful in assessing the Township's financing requirements. In particular, unreserved fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

The General Fund is the main operating fund of the Township. At the end of the current fiscal year fund balance of the General Fund was \$812,081. As a measure of the General Fund's liquidity, it may be useful to compare unassigned fund balance to total fund expenditures. Unassigned fund balance represents 157% of the total General Fund expenditures.

The fund balance of the Township's General Fund increased by \$89,041 during the fiscal year. Revenues increased by \$81,009 and expenditures increased by \$94,429 overall. Major decreases occurred in general services for professional fees and recreation. Major increases in the areas of town hall, other activities for insurance, and elections.

<u>Proprietary Funds</u> - The Township's proprietary funds provides the same type of information found in the government-wide financial statements, but in more detail. Net position at the end of the year amounted to \$2,258,730.

Budgetary Highlights

During the year ended December 31, 2019, there were two budget amendments.

Capital Assets and Debt Administration

The Township's investment in capital assets net of accumulated depreciation for the governmental and business-type activities as of December 31, 2019, amounts to \$4,590,630. The investment in capital assets includes land, buildings, system improvements, machinery, and equipment.

Additional information on the Township's capital assets can be found on page 31 of this report.

Long-term Debt

At the end of the current fiscal year, the Township had total debt in bonds and loans in the amount of \$1,245,000. This total amount is backed by the full faith and credit of the Township. The Township's overall debt decreased by \$25,000 during the fiscal year.

Additional information on the Township's long-term debt can be found starting on page 35 of this report.

Request for Information

This financial report is designed to provide our citizens, taxpayers, customers, investors and creditors with a general overview of the Township's finances. If you have questions about this report or need additional information, contact the Township Supervisor at the Portage Township, 47420 Green Acres Road, Houghton, Michigan 49931 or call (906) 482-4310 and e-mail address supervisor@charterportagetwp.org.

CHARTER TOWNSHIP OF PORTAGE NOTES TO FINANCIAL STATEMENTS - December 31, 2019

The Charter Township of Portage is a Charter Township located in Houghton County, Michigan and encompasses an area of 113.35 square miles. The Township operates under an elected Board of Trustees (seven members, including the Township Supervisor, Township Clerk, Township Treasurer, and four trustees) and provides services to a population of approximately 3,150 Township residents.

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of the Charter Township of Portage conform to generally accepted accounting principles for local governmental units as prescribed by the Governmental Accounting Standards Board and the American Institute of Certified Public Accountants. The following is a summary of the more significant policies:

REPORTING ENTITY

The Charter Township of Portage is incorporated under the laws of the State of Michigan and operates under an elected council form of government.

There are no other governmental units within the Township that are controlled by, or dependent upon the Township's Board of Trustees. Control by, or dependence on the Township, was determined on the basis of appointment of the governing body or governing authority budget adoption, taxing authority, outstanding debt secured by revenues or general obligations of the Township, obligation of the Township to finance any deficits that may occur, surplus funds, and scope of public service.

MEASUREMENT FOCUS, BASIS OF ACCOUNTING AND FINANCIAL STATEMENT PRESENTATION

Government-Wide Financial Statements - The statement of net position and the statement of activities display information about the Township as a whole. These statements distinguish between activities that are governmental and those that are considered business-type. The Statement of Net Position and Statement of Activities report information on all of the non-fiduciary activities of the primary government and its component unit. These statements exclude fiduciary activities such as trust and agency funds.

The government-wide financial statements are prepared using the economic resources measurement focus and the accrual basis of accounting as further defined under proprietary funds below. This is the same approach used in the preparation of the proprietary fund financial statements but differs from the manner in which governmental fund financial statements are prepared. Therefore, governmental fund financial statements include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements of governmental funds.

The government-wide statement of activities presents a comparison between expenses and program revenues for each different identifiable activity of the business-type activities of the Township and for each governmental program. Expenses are those that are specifically associated with a service or program and are therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipients of the goods or services offered by the programs and grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Revenues which are not classified as program revenues are presented as general revenues. The comparison of program revenues and expenses identifies the extent to which each function is self-financing or draws from the general revenues of the Township.

Internal activity is limited to inter-fund transfers which are eliminated to avoid "doubling up" revenues and expenses. Net position are reported as restricted when constraints placed on net position use are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or imposed by law through constitutional provisions or enabling legislation. The net position restricted for other purposes result from special revenue and capital projects and the restrictions on their net asset use.

<u>Fund Financial Statements</u> - Fund financial statements report detailed information about the Township. The focus of governmental and enterprise fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. The major governmental funds are each presented in a single column on the financial statements.

The following fund types are used by the Township:

<u>Governmental Funds</u> – The focus of the governmental funds' measurement (in the fund statements) is upon determination of the financial position (sources, uses, and balances of financial resources) rather than upon net income.

The following is a description of the major governmental funds of the Township:

<u>General Fund</u> - The General Fund is the government's primary operating fund. It is used to account for all financial resources of the general government, except those required to be accounted for in another fund.

<u>Fire Protection Fund</u> - The Fire Protection Fund accounts for fire protection operations.

<u>Permanent Fund Type</u> - The Cemetery Perpetual Care Fund is the Township's only permanent fund. The principal portion of the fund must stay intact, but the interest earnings are used to provide care for the cemetery.

The following is a description of the non major governmental funds of the Township:

Cemetery Fund - The Cemetery Fund accounts for all operations of cemetery activities.

<u>Liquor Law Fund</u> - This fund accounts for all activity in connection with liquor law enforcement as required by the State of Michigan and is funded by the same.

<u>Enterprise Funds</u>- Enterprise Funds are used to account for operations (a) that are financed and operated in a manner similar to private business enterprises where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or (b) where the governing body has decided the periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes.

Sewer and Water funds are major enterprise funds of the Township.

<u>Fiduciary Funds</u> - The Fiduciary Fund is used to account for the assets held by the township in a trustee capacity or as an agent for individual, private organizations, other governments and/or other funds. This type of fund includes the Custodial Fund and is reported within the basic financial statements. The Custodial fund accounts for collection and disbursement of property tax collections and is the only fiduciary fund. Fiduciary funds are excluded from the Government-wide statements because the Township cannot use these assets to finance its operations.

The Township does not report any Fiduciary funds as a major fund.

Measurement Focus

On the government-wide statement of net position and the statement of activities, both governmental and business-type activities are presented using the economic resource measurement focus as defined below.

In the fund financial statements, the "current financial resources" measurement focus or the "economic resources" measurement focus is used as appropriate:

- All governmental funds utilize a "current financial resources" measurement focus. Only current financial assets and liabilities are generally included on their balance sheets. Their operating statements present sources and uses of available spendable financial resources during a given period. These funds use fund balance as their measure of available spendable resources at the end of the period.
- The proprietary funds utilize an "economic resources" measurement focus. The accounting objectives of this measurement focus are the determination of operating income, changes in net assets, financial position and cash flows. All assets and liabilities, whether current or noncurrent, associated with their activities are reported. Proprietary fund equity is classified as net assets.
- Fiduciary funds utilize the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are record when a liability is incurred, regardless of the timing of related cash flows.

Other Accounting Policies

<u>Cash and cash equivalents</u> - The Township's cash and cash equivalents as reported in the statement of cash flows and the statement of net position are considered to include cash on hand, demand deposits, and short-term investments with a maturity of three months or less when acquired. Investments are stated at fair value. Pooled investment income is generally allocated to each fund using a weighted average of balance for the principal.

<u>Restricted assets</u> - Certain cash accounts are classified as restricted assets on the balance sheet because their use is limited. In the enterprise funds, the "Bond Requirements" accounts are used for the payment of current debt obligations.

<u>Receivables and Payables</u> - In general, outstanding balances between funds are reported as "due to/from other funds." All receivables are reported at their gross value and, where appropriate, are reduced by the estimated portion that is expected to be uncollectible. The Township has not recorded an allowance for uncollectible as the Township does not anticipate any material uncollectible accounts.

<u>Inventory</u> - Inventory is valued at cost as determined on the first-in, first-out method for the Sewer and Water Funds. For all other funds the Township utilizes the purchase method of recording inventories of materials and supplies. Under the purchase method, inventories are recorded as expenditures when they are purchased.

<u>Property Taxes</u> - Property taxes are accrued in the year they are levied. The tax levy is recorded as deferred revenue until the subsequent year when it becomes available for use. Properties are assessed as of December 31 and the related property taxes become a lien on December 1 of the following year. These taxes are due on February 14 with the final collection date of February 28 before they are added to the county delinquent tax rolls.

For the year ended December 31, 2019, the Township levied the following amounts per \$1,000 of assessed valuation:

Fund	Mills
Township Operating	1.3000
Fire Operating	.9868

<u>Capital Assets</u> – Capital assets, which include land, buildings, equipment, site improvements, and vehicles are reported in the applicable governmental activities column in the government-wide financial statements. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. All costs relating to construction of facilities are capitalized, including salaries, employee benefits, and bond interest costs. Donated capital assets are recorded at estimated fair market value at the date of donation. Costs of normal repair & maintenance that do not add to the value or materially extend asset lives are not capitalized. Capital assets are defined by the Township as assets with an initial individual cost of more than \$3,000 and an estimated useful life of more than one year.

In the government-wide financial statements, capital assets are accounted for as capital assets. All capital assets are valued at historical cost or estimated historical cost if actual is unavailable, except for donated capital assets which are recorded at their estimated fair value at the date of donation.

Depreciation of all exhaustible capital assets is recorded as an allocated expense in the statement of activities, with accumulated depreciation reflected in the statement of net position. Depreciation is provided over the asset's estimated useful lives using the straight-line method of depreciation.

The range of estimated useful lives by type of assets is as follows:

System lines	40-50 years
Buildings and additions	20-50 years
Vehicles	5-10 years
Furniture and other equipment	5-10 years

In the fund financial statements, capital assets used in governmental fund operations are accounted for as capital outlay expenditures of the governmental fund upon acquisition. Capital assets used in proprietary fund operations are accounted for the same as in the government-wide financial statements.

<u>Restricted Assets</u> - Certain cash accounts are classified as restricted assets on the balance sheet because their use is limited. In the Enterprise Fund, the "Bond Requirements" accounts are used for the payment of current debt obligations. Cemetery Perpetual Care Fund cash accounts have been reserved for the principal portion of the non-expendable cash.

<u>Long-term Debt</u> - The accounting treatment of long-term debt depends on whether the assets are used in governmental fund operations or proprietary fund operations and whether they are reported in the government-wide or fund financial statements.

All long-term debt to be repaid from governmental and business-type resources is reported as liabilities in the government-wide statements. The long-term debt consists of bonds payable.

Long-term debt for governmental funds is not reported as liabilities in the fund financial statements. The debt proceeds are reported as other financing sources and payment of principal and interest reported as expenditures as it is in the government-wide statements.

<u>Compensated Absences</u> - The Township'S policies regarding vacation and sick time permit employees to accumulate vacation and sick time. The liability for vacation compensated absences is recorded as long-term debt in the government-wide statements. In the fund financial statements, governmental funds report only the compensated liability payable from expendable available financial resources, while proprietary funds report the liability as it is incurred.

<u>Deferred Outflows of Resources and Deferred Inflows of Resources</u> - Deferred outflows are reported in a separate section following assets and represents a consumption of net position applying to a future period and therefore will not be recognized as an outflow of resources (expense/expenditure) until then. The Township has no deferred outflows in the current year.

Deferred inflows are reported in a separate section following liabilities and represents an acquisition of net position applying to a future period and therefore will not be recognized as an inflow of resources (revenue) in the current year. The Township has reported \$90,376 in property taxes levied for the following year, and therefore not available in the current year under the governmental fund basis of accounting, as a deferred inflow.

Equity Classification

Government-Wide Statements

Equity is classified as net position and displayed in three components:

- 1. Net investment in capital assets Consists of capital assets including restricted capital assets, net of accumulated deprecation and reduced by the outstanding balances of any bonds, notes or other borrowing that are attributable to the acquisition, construction or improvement of those assets.
- 2. Restricted net position Consist of net position with constraints placed on the use either by (1) external groups such as creditors, grantors, contributors or laws or regulations of other governments; or (2) law through constitutional provisions of enabling legislation.
- 3. Unrestricted net position All other net position that do not meet the definition of "restricted" or "invested in capital assets, net of related debt."

Fund Statements – Governmental fund equity is classified as fund balance. Fund balance is further classified as described on page 28. Proprietary fund equity is classified the same as in the government-wide statements.

Revenues

Government-Wide Statements

In the government-wide statement of activities, revenues are segregated by activity (governmental or business-type), and are classified as either a program revenue or a general revenue. Program revenues include charges to customers or applicants for goods or services, operating grants and contributions and capital grants and contributions. General revenues, includes all revenues which do not meet the criteria of program revenues and included revenues such as property taxes, state revenue sharing payments and interest earnings.

Fund Statements

In the governmental fund statements revenues are reported by source, such as federal sources, state sources and taxes. Revenues consist of general purpose revenues and restricted revenues. General purpose revenues are available to fund any activity reported in that fund, while restricted revenues are available for a specific purpose or activity and the restrictions are typically required by law or a grantor agency. When both general purpose and restricted revenues are available for use, it is the Township's policy to use restricted resources first.

Expenses/Expenditures

Government-Wide Statements

In the government-wide statement of activities, expenses are segregated by activity (governmental or business-type), and are classified by function.

Fund Statements

The governmental fund financial statements are classified by character: current, debt service, and capital outlay.

In the proprietary fund financial statements expenses are classified by operating and nonoperating and sub-classified by function such as salaries, supplies and contracted services.

Operating Revenues and Expenses

Operating revenues and expenses for proprietary funds are those that result from providing services and producing and delivering goods and/or services. It also includes all revenue and expenses not related to capital and related financing, noncapital financing or investing activities.

Other Financing Sources (Uses)

The transfers of cash between the various Township funds are budgeted but reported separately from revenues and expenditures as operating transfers in or (out), unless they represent temporary advances that are to be repaid, in which case, they are carried as assets and liabilities of the advancing or borrowing funds.

Interfund Activity

As a general rule, the effect of interfund activity has been eliminated from the government-wide statements. Exceptions to this rule are: 1) activities between funds reported as governmental activities and funds reported as business-type activities, and 2) activities between funds that are reported in different functional categories in either the governmental or business-type activities column. Elimination of these activities would distort the direct cost and program revenues for the functions concerned.

In the fund financial statements, transfers represent flows of assets without equivalent flows of assets in return or a requirement for repayment.

Interfund receivables and payables have been eliminated from the statement of net position, except for the residual amounts due between governmental and business-type activities.

<u>Fund Balance</u> - Governmental funds report *nonspendable fund balance* for amounts that cannot be spent because they are either a.) not in spendable form, or b.) legally or contractually required to be maintained intact. *Restricted fund balance* is reported when externally imposed constraints are placed on the use of the resources by grantors, contributors, laws or regulations of other governments. *Committed fund balance*, if any, is reported from amounts that can be used for specific purposes pursuant to constraints imposed by formal action by the government's highest level of decision making authority, the Board. A formal resolution of the Board is required to establish, modify or rescind a fund balance commitment. The Township reports *assigned fund balance* for amounts that are constrained by the government's intent to be used for specific purposes, but are neither restricted nor committed. *Unassigned fund balance* is the residual classification for the general fund.

When the Township incurs an expenditure for purposes for which various fund balance classifications can be used, it is the Township's policy to use restricted fund balance first, then committed fund balance, assigned fund balance, and finally unassigned balance.

<u>Estimates</u> - The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

<u>Encumbrances</u> - Encumbrances are defined as commitments related to unperformed contracts for goods and services. The Township does not record encumbrances in the normal course of operating its accounting system and none are recorded in the accompanying financial statements.

NOTE B - STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

The Township follows these procedures in establishing the budgetary data reflected in the financial statements:

- Each October, the Township Supervisor prepares a proposed operating budget for the fiscal year commencing the following January 1, and submits this proposed budget to the Township Board of trustees at the annual meeting in January.
- The Township Board of Trustees reviews the proposed budget, which includes proposed expenditures and the means of financing them.
- Pursuant to the statute, the proposed budget as approved by the Board of Trustees, is submitted to the Township at a
 public hearing, at which time public comment is invited. The final budget is formally adopted at the next board
 meeting.
- The Board of Trustees reviews the budget quarterly during the fiscal year and makes formal amendments when appropriate.
- Budget appropriation's lapse at the end of the fiscal year.

Budgetary amounts reported herein are as originally adopted, or as amended by the Township Board throughout the operating year.

In accordance with the State of Michigan Budgeting and Accounting Act, the Township must adopt an annual operating budget for the General and Special Revenue. In the body of the financial statements, the Township's actual expenditures and budgeted expenditures for the budgetary funds have been shown on a functional basis. Violations, if any, for the General and Fire Protection Funds are noted in the required supplementary information section.

NOTE C - CASH

At year-end, the Township's cash deposits (checking, savings and certificates of deposit) were reported in the basic financial statements in the following categories:

		Governmental		Enterprise		Total			
		Activities		Funds		Government		Fiduciary Funds	
Unrestricted cash		\$	749,232	\$	166,067	\$	915,299	\$	-
Restricted cash			32,270		103,601		135,871		36,309
	Total cash	\$	781,502	\$	269,668	\$	1,051,170	\$	36,309

<u>Custodial Credit Risk - Deposits</u> – In the case of deposits, this is the risk that in the event of a bank failure, the Township's deposits may not be returned to it. One hundred percent (100%) of the Authority's deposits are insured by the Federal Deposit Insurance Corp. (FDIC) at December 31, 2019, per FDIC regulation number 330.8.

NOTE D - INVESTMENTS

The cost, market value, and unrealized appreciation (depreciation) of investment securities are as follows:

	- -	December 31,	2019	December 31, 2018					
			Unrealized			Unrealized			
			Appreciation			Appreciation			
Description	Cost	Fair Value	(Depreciation)	Cost	Fair Value	(Depreciation)			
Short-term investment	\$ 143,043	\$ 143,043	\$ -	\$ 61,567	\$ 61,567	\$ -			
U.S. Government and Agencies	415,867	385,322	(30,545)	445,845	432,087	(13,758)			
Mutual funds	594,482	658,765	64,283	524,512	533,493	8,981			
Total Investments	\$1,153,392	\$1,187,130	\$ 33,738	\$1,031,924	\$1,027,147	\$ (4,777)			

The following table presents information about the Township's investments measured at fair value on a recurring basis and the valuation techniques used by the Township to determine those fair values. The FASB ASC 820 Fair Value Measurements establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority; Level 2 inputs consist of observable inputs other than quoted prices for identical assets; Level 3 inputs consist of unobservable inputs and have the lowest priority. The Township uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments.

		Fair Value Measurements at Reporting Date Using:						
		Qı	oted Prices					
			in Active		Other	Sign	ificant	
		N	Markets for	C	bservable	Unobs	servable	
		Ide	ntical Assets		Inputs	In	puts	
December 31, 2019	 Fair Value		(Level 1)	((Level 2)	(Le	vel 3)	
Short-term investment	\$ 143,043	\$	143,043	\$	-	\$	-	
U.S. Government and Agencies	385,322		-		385,322		-	
Mutual funds	 658,765		658,765					
Total Investments	\$ 1,187,130	\$	801,808	\$	385,322	\$		
December 31, 2018								
Short-term investment	\$ 61,567	\$	61,567	\$	-	\$	-	
U.S. Government and Agencies	432,087		-		432,087		-	
Mutual funds	 533,493		533,493				<u>-</u>	
Total Investments	\$ 1,027,147	\$	595,060	\$	432,087	\$		

NOTE D - INVESTMENTS (Continued)

Interest Rate Risk - In accordance with its investment policy, the Township will minimize interest rate risk, which is the risk that the market value of securities in the portfolio will fall due to changes in market interest rates, by; structuring the investment portfolio so that securities mature to meet cash requirements for ongoing operations, thereby avoiding the need to sell securities in the open market; and, investing operating funds primarily in shorter-term securities, liquid asset funds, money market mutual funds, or similar investment pools and limiting the average maturity in accordance with the Township's cash requirements.

<u>Credit Risk</u> - State law limits investments in commercial paper corporate bonds to a prime or better rating issued by nationally recognized statistical rating organizations (NRSROs).

<u>Concentration of Credit Risk</u> - The Township will minimize concentration of credit risk, which is the risk of loss attributed to the magnitude of the Township's investment in a single issuer, by diversifying the investment portfolio so that the impact of potential losses from any one type of security or issuer will be minimized.

<u>Custodial Credit Risk - Investments</u> - For an investment, this is the risk that, in the event of the failure of the counterparty, the Township will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party.

The Township will minimize custodial credit risk, which is the risk of loss due to the failure of the security issuer or backer, by; limiting investments to the types of securities allowed by law; and pre-qualifying the financial institutions, broker/dealers, intermediaries and advisors with which the Township will do business.

NOTE E - INTER-FUND RECEIVABLES AND PAYABLES/TRANSFERS

The amounts of inter-fund receivables and payables at December 31, 2019 are as follows:

		nterfund		Interfund	be	expected to paid back	
Fund	R	eceivable	Fund	 Payable	within one year		
General Fund	\$	226,386	Water Funds	\$ 32,180	\$	-	
Sewer Funds		740	Sewer Funds	192,865		192,865	
Perpetual Care Fund		14,311	Non-Major Funds	 16,392		_	
Total	\$	241,437	Total	\$ 241,437	\$	192,865	

- The tax collection fund owed the General Fund \$32,407 at December 31, 2019.
- Perpetual Care Fund transferred \$50,000 to the Cemetery Fund.

NOTE F - CAPITAL ASSETS

Capital Asset activity of the Township's governmental activities was as follows:

	Balance 1/1/2019		Additions		Deletions		Balance 12/31/2019	
Capital assets, not being depreciated Land	\$ 584,554	\$	6,308	\$	<u>-</u>	\$	590,862

NOTE G - ACCUMULATED UNPAID VACATION

Township full time employees accumulate vacation days and will be compensated upon leaving the township's employment. The maximum vacation accrual is thirty (30) days. Vacation days are earned on an annual basis at the following rate, per every 160 hours worked:

Years of Employment	Vacation Days
One year	1/2
Two through seven	1
Eight through ten	1 1/4
Eleven or more	1 1/2

Accumulated unpaid vacation at December 31, 2019 was \$6,472.

NOTE H - BOND PAYMENT AND RESERVE REQUIREMENTS - PROPRIETARY FUNDS

PORTAGE SEWER DISPOSAL SYSTEM REVENUE BONDS, SERIES 2010

Bond and Interest Redemption Account - The Township is required to set aside each quarter on or after July 1, an amount not less than ½ of the amount of interest due on the next two interest payments and next principal payment date.

<u>Bond Reserve Account</u> - The Township is required to deposit \$362.50 per quarter into a bond reserve account until an amount of \$14,500 is accumulated, to be used for payment on the bonds in the event of default.

<u>Repair, Replacement, and Improvement Account</u> - The Township is required to deposit into a repair, replacement, and improvement account (RRI) at least \$1,362.50 per quarter, less the amount, if any, deposited in the Bond Reserve Account.

NOTE H - BOND PAYMENT AND RESERVE REQUIREMENTS - PROPRIETARY FUNDS (Continued)

DAKOTA HEIGHTS SEWAGE DISPOSAL SYSTEM REVENUE BOND, SERIES 2011

Bond and Interest Redemption Account - The Township is required to set aside each quarter on or after July 1, 2011 an amount not less than $\frac{1}{2}$ of the amount of interest due on the next interest payment and $\frac{1}{4}$ of the amount of principal due on the next principal payment date.

<u>Bond Reserve Account</u> - The Township is required to deposit \$275 per quarter, commencing October 1, 2011, into a bond reserve account to be used for payment on the bonds in the event of default.

<u>Repair, Replacement, and Improvement Account</u> - The Township is required to deposit into a repair, replacement, and improvement account (RRI) at least \$775 per quarter, less the amount, if any, deposited in the Bond Interest Redemption and Reserve Accounts.

PORTAGE WATER - 2008 WATER SUPPLY AND DISTRIBUTION SYSTEM JUNIOR LIEN REVENUE BOND

Bond and Interest Redemption Account -The Township is required to set aside each quarter on or after April 1, an amount not less than ½ of the amount of interest due on the next interest payment and ¼ the amount of principal due on the next principal payment date.

<u>Bond Reserve Account</u> - The Township is required to establish a bond reserve account to be used for payment on the bonds in the event of default.

Repair, Replacement, and Improvement Account -The Township is required to deposit into a repair, replacement, and improvement account (RRI) at least \$1,725 per quarter, less the amount, if any, deposited in the Bond Reserve Account. During the year the Township utilized funds from this account for new wireless meters in the amount of \$94,956.

DAKOTA HEIGHTS WATER SUPPLY SYSTEM REVENUE BONDS, SERIES 2000

Bond and Interest Redemption Account - The Township is required to set aside each quarter on or after April 1, an amount not less than $\frac{1}{2}$ of the amount of interest due on the next interest payment and $\frac{1}{4}$ of the amount of principal due on the next principal payment date.

Bond Reserve Account - The Township is required to deposit \$275 per quarter into a bond reserve account to be used for

payment on the bonds in the event of default.

Repair, Replacement, and Improvement Account - The Township is required to deposit into a repair, replacement, and improvement account (RRI) at least \$2,100 per quarter, less the amount, if any, deposited in the Bond Reserve Account. During the year the Township utilized funds from this account for new wireless meters in the amount of \$25,584.

NOTE H - BOND PAYMENT AND RESERVE REQUIREMENTS - PROPRIETARY FUNDS (Continued)

At December 31, 2019, the Township had established these accounts and had restricted cash, as required, as follows:

	Required			Amount Funded		
Portage Sewer Fund						
Bond Reserve	\$	12,325	\$	-		
Repair and Replacement		4,000		-

NOTE J - DEFINED CONTRIBUTION PLAN

The Township has a Defined Contribution Pension Plan for Michigan Township Employees and provides pension benefits for all of its eligible employees through this plan managed by Burnham & Flower Insurance Group. In a defined contribution plan, benefits depend solely on amounts contributed to the plan plus investment earnings. Full-time and seasonal employees are eligible to participate from their date of employment. The Township policy requires that the Township contribute an amount equal to 5% of the employee's compensation. No contribution is required by any employee, although an employee may contribute. Township contributions for each employee and allocated to the employee's account are fully vested. Any amount contributed voluntarily by the employee under the plan, plus any earnings, are fully vested at the time of the contribution or crediting of investment earnings. The Township's contributions were calculated using the eligible wage amount of \$261,437. The Township made the required 5% contribution amounting to \$13,072.

NOTE K - SEGMENT INFORMATION FOR ENTERPRISE FUNDS

The Township maintains five Enterprise Funds which provide water and sewer services. Segment information for the year ended December 31, 2019 is as follows:

		Dakota	Dakota		Woodland				
	Portage		Heights		Portage		Heights		Road
	Sewer	Sewer		Water		Water			Water
Operating revenues	\$ 224,130	\$	40,946	\$	176,517	\$	23,745	\$	39,818

Total Equity	\$ 672,315	\$	579,874	\$	476,262	\$	284,233	\$	246,046

NOTE L - CHANGE IN ACCOUNTING PRINCIPLE

For the year ended December 31, 2019, the Township implemented the new pronouncement GASB Statement No. 84, Fiduciary activities.

Governmental Accounting Standards Board (GASB) Statement No. 84, Fiduciary Activities, was issued by GASB in January 2017 and will be effective for the Township's 2019 year end. The objective of this Statement is to improve guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how these activities should be reported. This Statement establishes criteria for identifying fiduciary activities for all state and local governments. The focus on the criteria generally is on (1) whether a government is controlling the assets of the fiduciary and (2) the beneficiaries with whom a fiduciary relationship exists. An activity meeting the criteria should be reported in a fiduciary fund in the basic financial statements. Local governments with activities meeting the criteria should present a statement of fiduciary net position and a statement of changes in fiduciary net position.

NOTE M - UPCOMING ACCOUNTING PRONOUNCEMENT

Governmental Accounting Standards Board (GASB) Statement No. 87, Leases, was issued by the GASB in June 2017 and will be effective for the Township's 2021 year end. The objective of this Statement is to increase the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to sue the underlying asset. Under this Statement, a lease is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities.

CHARTER TOWNSHIP OF PORTAGE NOTES TO FINANCIAL STATEMENTS - December 31, 2019

NOTE N - CONTINGENT LIABILITY

The Township has received financial assistance from federal and state agencies. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreement and are subject to audit by the grantor agency. Any disallowed claims resulting from such audits could become a liability of the applicable fund of the Township. However, in the opinion of management, any such disallowed claims will not have a material effect on any of the financial statements or on the overall financial position of the Township at December 31, 2019.

NOTE O - RISK MANAGEMENT

The Township is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Township continues to carry commercial insurance for property, liability, wrongful acts, crime inland marine, and other risks of loss including worker's compensation and accident insurance. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three calendar years.

COMMUNICATION WITH THOSE CHARGED WITH GOVERNANCE

Members of the Township Board Charter Township of Portage Houghton, Michigan

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Charter Township of Portage for the year ended December 31, 2019. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards and, Government Auditing Standards, as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated April 17, 2020. Professional standards also require that we communicate to you the following information related to our audit.

Significant Audit Findings

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the Charter Township of Portage are described in Note A to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during the year ended December 31, 2019. We noted no transactions entered into by the Charter Township of Portage during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. The most sensitive estimate affecting the Charter Township of Portage's financial statements is current depreciation.

Management's estimate of the useful lives of fixed assets, used to calculate depreciation, is based on the estimated useful lives of certain classes of assets. We evaluated the key factors and assumptions used to develop the useful lives in determining that it is reasonable in relation to the financial statements taken as a whole.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are trivial, and communicate them to the appropriate level of management. Management has corrected all such misstatements. In addition, none of the misstatements detected as a result of audit procedures and corrected by management were material, either individually or in the aggregate, to the financial statements taken as a whole.

Disagreements with Management

For purposes of this letter, professional standards define a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated July 28, 2020.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the Charter Township of Portage's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the Charter Township of Portage's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

Other Matters

We applied certain limited procedures to the budgetary comparison schedules and pension requirements which are required supplementary information (RSI) that supplements the basic financial statements. Our procedures consisted of inquiries of management regarding the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We did not audit the RSI and do not express an opinion or provide any assurance on RSI.

We were engaged to report on the supplemental financial information, which accompany the financial statements but are not RSI. With respect to this supplementary information, we made certain inquiries of management and evaluated the form, content, and methods of preparing the information to determine that the information complies with accounting principles generally accepted in the United States of America, the method of preparing it has not changed from the prior period, and the information is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the supplementary information to the underlying accounting records used to prepare the financial statements or to the financial statements themselves.

Restriction on Use

This information is intended solely for the use of the Charter Township of Portage board and management and is not intended to be and should not be used for anyone other than these specified parties.

CHARTER TOWNSHIP OF PORTAGE COMMENTS AND RECOMMENDATIONS

During our audit we became aware of opportunities for strengthening internal controls and operating efficiencies. The following items summarize our comments and suggestions regarding those matters.

We will review the status of these comments during our next audit engagement. We have already discussed these comments and suggestions with various personnel, and we will be pleased to discuss them in further detail at your convenience, to perform any additional study of these matters, or to assist you in implementing the recommendations.

2019-001 BUDGETING ISSUES

Condition: The Township's General Appropriations Act (budget) provided for expenditures of the General Fund and the Special Revenue Funds to be controlled at the activity level by the Township.

During the fiscal year, expenditures were incurred in excess of amounts appropriated in the amended budgets for the general fund as reported in the required supplemental information on page 42.

Criteria: The expenditures of funds in excess of appropriations are contrary to the provisions of Section 17 of 1968 PA 2.

Cause: Five areas in the general fund had unexpected expenditures after the budget was approved.

Effect: The Township is in violation of the Act.

Directive: We direct that the Township develop budgetary control procedures for the General Fund and the Special Revenue Funds which will ensure that expenditures do not exceed amounts authorized in the budget or amendments thereof.

2019-002 ENTERPRISE FUNDS

Enterprise Funds are used to report an activity for which a fee is charged to external users for goods or services. Laws or regulations require that the activity's costs of providing services, including capital costs (such as depreciation or debt service), be recovered with fees and charges, rather than with taxes or similar revenues.

The Township's fees and charges are not recovering the costs for all Enterprise Funds. We recommend that the Township review revenues and expenses of these funds and adjust their pricing policies/rates to recover the costs accordingly so operations of these funds are recovering, at a minimum, their costs of operations.

2019-003 REQUIRED RESERVE ACCOUNTS

As of December 31, 2019, there was a shortage of funds to meet the requirements of the Portage Sewer Fund in the amount of \$23,354 and Portage Water in the amount of \$732 on page 35. The Township needs to deposit additional funds into the required accounts and review the schedules and deposit/transfer funds on a quarterly basis to meet the requirements.

2019-004 AUDIT SUBMISSION

The Township requested an extension from for the Department of Treasury Community Engagement and Finance Division for this audit and F-65 reports. The request was approved and reports extension date is July 31, 2020.
